ELENA
COLLECTION

ESSENTIALS

The clay from which the ceramic is made is strong and durable, capable of being worked into unique and singular shapes, giving the bathroom a unique personality.

We introduce our new Elena collection based on the search for unique and singular bathroom solutions through ceramic washbasin pieces in exquisite design. Ceramic is a compact, hard, scratch resistant and easy to clean material. It is a basic and an all-rounder. Nature and ceramics have a lot in common: they are both very strong and, at the same time, can be extremely fragile.

The pieces presented here are the beginning of a new concept for bathroom collections. Solutions based on the personality of the most visible piece when we enter the bathroom. Its powerful shapes, always in harmony with maximum functionality, attract the eye to define a decorative style of the space it occupies, our space.
