«With Avila Dos we achieve quality, functional and very attractive results»

EDITORIAL

Creative thinking is the key ingredient for a company's visibility in 2023. There have never been so many means and so much preparation to be able to do so, and yet it has probably never been so difficult to implement. The rush. Time is one of the most complex factors to manage and adjust with such creative thinking. Everything seems to be thought out and within everyone's reach in a market that launches products and messages without delay and without giving the consumer any time to get to know and digest them.

Developing the product and offering novelties is a MUST that, as a company dedicated to design and interior design, we must comply with, without a doubt. We are as responsible as we all are for making it improve and meet the needs of our customers better and better every day.

But the creativity of thought must be extended to many other areas.

In the last year, at Avila Dos, we have been devoting a lot of effort to creating technological tools that facilitate the work of our distributors and designers. We are thinking about how to better organise our production so that to improve manufacturing and delivery times. We look for ways to make our shipments safer and for the material not to be damaged.

We want to ensure that installation is never an obstacle; we want it to be user-friendly and that they can enjoy the installed product as soon as possible...

Creative thinking leads to a different way of doing things, always in order to improve them.

INTERVIEW

Miriam Mímesis Interiorismo

A UNIQUE STYLE, YOURS

«I love the diversity of styles offered by Avila Dos and its daring use of colour.»

Miriam Gómez is an EVERYTHING in a positive key. Architect and interior designer, disciplines that she approaches and disseminates with a lot of art. Circumstantially, life led her to merge interior design and communication thanks to her Youtube channel in which she tells the ins and outs of a renovation supported by ideas and tips that her followers welcome with enthusiasm. Would you like to have a magazine bathroom? She helps you to achieve it.

READ THE COMPLETE INTERVIEW IN WWW.AVILADOS.COM

Who is Miriam?

I am a technical architect and interior designer, who runs Mimesis Interiorismo and who has made decoration and interior design not only her passion, but a fundamental pillar for the dissemination of this art.

How would you define your style?

A style that is above all functional, in which we prioritise creating homes in which our clients feel like themselves, with bright, warm spaces and always, always with a clear commitment to the use of colour.

I have always had the feeling that there was a lot of secrecy in relation to the ins and outs and the process that an interior design project follows. Our youtube channel is designed to help and inspire.

How did you start the Youtube adventure?

I've always had the feeling that there was a lot of secrecy about the ins and outs and the process that goes into an interior design project. Obviously you do show the photos of the great result... but in my opinion, if you don't explain everything behind it, how could the public or a potential client value it? And with this idea the channel was born, with this idea the channel was born, with the idea of bringing decoration closer, so that by understanding it, it could be valued much more.

Did you think it would become a job in itself?

No, not really. When we started, we didn't know how much the channel would grow. Nor that, today, it is also a major part of our agenda.

What do you like most on your channel; tips, works... when we talk about interior design?

Both on youtube and Instagram, what I like the most is when we show the day to day of our projects and works, when I explain the reason for things, why we have chosen one material and not another... and we also give them tips and advice so that they are also able to use them.

For us, all the projects with Avila Dos furniture are an example of how to combine a quality, comfortable and very functional design with an aesthetic and striking result, and above all very personal, because they make each bathroom unique and different.

ABOUT AVILA DOS

What values do you find in the Avila Dos brand?

Commitment, quality, personalisation and the detail of taking care of the little things.

And what about your product?

They are furniture with a very elaborate design, adaptable to all projects and styles, because of the many options for customisation, and also because of the daring use of colour, which is something I love...

Which of their collections do you love?

I like them all, because the collections are so different from each other, I have a solution for each project. But for its originality, I highlight the Sue Lux collection, with the design of its fronts that I love.

ABOUT BATHROOM REFORMS

What are the essential factors to take into account in a bathroom reform project?

Undoubtedly, in a bathroom it is the functionality, it is useless that the bathroom is beautiful, if it is uncomfortable to use and is poorly designed. It should be a bright, clean space that fills us with positivity.

What are the decorative trends in the bathroom world that you would highlight?

Right now the main trend, although there is a lot to choose from, is a clear commitment to the natural. Finishes and colours that connect us with nature. Very bright, and opting for resources and technology that also make them increasingly sustainable.

Can you tell us about one of your projects with Avila Dos?

Well, a project that we really like is the one in which we used a piece of furniture from the Sue Lux collection, with a beautiful apple green tone, which played perfectly with the chosen colour palette, especially with the wallpaper base. We wanted a bathroom that was different and, as always, had a unique and very personal touch.

If there were a project with no limits or budget, how would you like to apply Avila Dos?

Ugh, a thousand ideas come to mind, but I think it would be a lot of fun to work on designing a small hotel, where each room and therefore each bathroom would be different, and we could be inspired only by the use and theme of colour. We are passionate about colour and its psychology.

How to set up a bath option.

GENERAL CONDITIONS, FURNITURE, WASHBASINS, MIRRORS AND OTHER COMPLEMENTS

CARRIAGE:

After delivery of the goods, THE PURCHASER HAS 24H for any claim derived from the transport, deterioration or bad state of the goods. If the complaint for this reason is made after 24 hours, THE COMPANY DOES NOT TAKE RESPONSIBILITY FOR THE EXPENSES ORIGINATED FOR THE REPLACEMENT OF THE PRODUCT, NOR FOR THE TRANSPORT.

The purchaser agrees to inspect the goods within the period indicated and in the event that should he observe any damage attributable to transport in the packaging, it must be noted on the delivery note. The absence of observations on it, implies the buyer's conformity with the state of the products received, so that subsequent claims for defects will not be accepted, if the described procedure has not been followed.

PRICES:

The prices shown in the catalogue are. "Recommended retail price" taxes NOT included. Prices are subject to change without prior notice, although they will be communicated to the buyer or his agent at the time of placing the order.

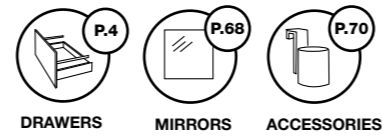

GUARANTEE:

AVILA DOS guarantees its products according to the provisions of the Directive 1999/44/CE and RD Legislative 1/2007 of 16 November on guarantees in the sale of consumer goods. This guarantee does not cover damage resulting from transport, incorrect installation, manipulation or repairs, as well as damage due to natural wear and tear, mistreatment, improper use and maintenance, knocks, falls, accidents or defects not attributable to the manufacture. In the event of litigation, both parties submit themselves to the courts and tribunals of Lucena (Cordoba), with express waiver of their own jurisdiction if they have it.

IMPORTANT

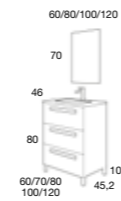

The Company reserves the right to modify, cancel or introduce any article without the need to communicate it expressly or to replace any material.

The purchaser agrees to inspect the goods within the period indicated and in the event that should he observe any damage attributable to transport in the packaging, it must be noted on the delivery note. The absence of observations on it, implies the buyer's conformity with the state of the products received, so that subsequent claims for defects will not be accepted, if the described procedure has not been followed.

PRICES:
The prices shown in the catalogue are. "Recommended retail price" taxes NOT included. Prices are subject to change without prior notice, although they will be communicated to the buyer or his agent at the time of placing the order.

GUARANTEE:
AVILA DOS guarantees its products according to the provisions of the Directive 1999/44/CE and RD Legislative 1/2007 of 16 November on guarantees in the sale of consumer goods. This guarantee does not cover damage resulting from transport, incorrect installation, manipulation or repairs, as well as damage due to natural wear and tear, mistreatment, improper use and maintenance, knocks, falls, accidents or defects not attributable to the manufacture. In the event of litigation, both parties submit themselves to the courts and tribunals of Lucena (Cordoba), with express waiver of their own jurisdiction if they have it.

IMPORTANT
The Company reserves the right to modify, cancel or introduce any article without the need to communicate it expressly or to replace any material.
